

Be Fire Safe and Save

Most insurance companies offer discounts on liability policies if you show proof of sprinkler, hood, and fire extinguisher service reports. Did you know that your insurance carrier can decline your claim if your fire extinguisher, hood system or sprinkler system is not serviced to code? AAA Quality Services can provide your fire protection needs and help maximize your insurance discounts.

Protection from not only fire

A fire extinguisher can be used for self-defense. The chemical is not harmful but is effective as a deterrent creating a fog when sprayed toward a would-be attacker's face.

Bakersfield 661-833-5510

Service Available 24 / 7

A Little History

In 1958 Jay & Viola Faubel began offering protective services as AAA Alarm & Lighting Company. AAA Quality Services, Inc remains family owned with many changes and improvements over the last 50 years in business. The Fire Extinguisher division was added in 1974 and is one of the oldest licensed by the CA State Fire Marshal. Through expansions, AAA Quality Services also offers many construction related services including but not limited to portable restrooms, storage containers, temporary fencing and power, security guards & patrol. Services also includes Knight Guard Alarm providing commercial and residential alarm systems, CCTV, monitoring and service. Continuing protection for the Central Valley.

California Code of Regulations, Title 8, requires all employers to train employees who may need to operate a fire extinguisher how to properly use one. We offer live fire training and non-live fire demonstrations at your location or at our facility.

For interactive online training and information, go to www.fire-extinguisher101.com.
